StitchOps

One place to run a design studio: orders, invoices, customers, team and pay.

DASHBOARD

- Revenue, orders and outstanding payments at a glance
- Filter by date range and currency
- Pending items flagged for quick action
- Global search across orders, customers and invoices

ORDERS

- Log orders with customer, designer, price and currency
- Track status from pending to completed
- Production cost and commission recorded per order
- Filter by date, status, currency and search
- Duplicate-submit protection on every save

INVOICES

- Automatic monthly invoicing of completed orders
- Per-customer invoice numbering and prefixes
- Add or remove orders on an invoice before sending
- Mark paid with bank account and payment date
- Overdue tracking and payment reminders

CUSTOMERS

- Customer profiles with codes, contacts and country
- Free-trial vs paid customers, active / inactive
- Assigned salesperson or company-owned
- Full order and invoice history per customer
- New-customer alerts for the admin

TEAM & EMPLOYEES

- Salespeople, designers and custom teams
- Employee profiles with customers and earnings
- Commission rates, base salary and payout day
- Login accounts and role-based access
- Assigned company email addresses

PAYSLIPS

- Monthly payslip drafts built from earned commission and production
- Edit included orders before issuing
- Payslip history with numbered slips
- Staff notified when slips are ready

STAFF PORTAL

- Salespeople see only their own customers
- Personal payslips and earnings
- Self-service profile and password change

REPORTS

- Monthly report of sales, costs and profit
- Breakdown by currency, customer and employee

MULTI-CURRENCY

- USD, GBP, AUD, EUR and a home currency
- Exchange rates with live market updates
- Totals converted to the default currency

DATA IMPORT & EXPORT

- Excel export of any list, matching current filters
- Full backup export and one-click restore
- Per-page import with column mapping
- Import old order sheets: customers and staff matched or created automatically, with undo

SETTINGS & SECURITY

- Company details, logo and bank accounts
- SMTP email setup with connection test
- Secure login, password reset requests
- Admin-only areas and live notifications

BUILT FOR DAILY USE

- Fast server-side paging and search
- Mobile-friendly layout and filter sheets
- Real-time updates across devices
